PROJECTS

My Jobify

09/2024

<https://github.com/Martin-Andreev-288/my-jobify-mern>

A MERN-based job tracking app for managing job applications. Users can add, view, and track job details, view statistics, and upload profiles. Includes admin-only features and a demo mode for non-registered users.

Technologies used: React, Node.js, Express.js, MongoDB.

My Comfy Store

08/2024 - 09/2024

<https://github.com/Martin-Andreev-288/my-comfy-store>

A user-friendly e-commerce platform for browsing and sorting household products. Features include product search, cart management, and purchase simulations, with public and private pages based on user registration.

Technologies used: React, TypeScript, Redux, Tailwind CSS, Shadcn/ui.

Collab Messenger

02/2024 - 03/2024

<https://github.com/Alpha-55-JS-Web-Programming/Final-Project-Team5>

A cutting-edge messaging app designed to enhance real-time collaboration and communication among teams. This project features functionalities for sharing resources, linking information, and facilitating discussions through voice and video.

Technologies used: React, JavaScript, HTML, Tailwind CSS, Firebase.

Gifs SPA Application

01/2024 - 01/2024

<https://github.com/Alpha-55-JS-Web-Programming/Team-Project>

An engaging Single Page Application designed for easy searching, viewing, and sharing of gifs. Utilizes the Giphy API to display top trending gifs, with features for users to search and upload their own gifs.

Technologies used: JavaScript, HTML, CSS, DOM.
